FLEET IS INVITED TO AUSTRALIA

American Battleship Fleet May
Visit That Country.

PLANS NOT FULLY MUTURED

But It Is Not Unlikely That at Least
a Portion of Evans' Fleet Will Journey
to the Antipodes—Remainder
May Return by Way of Suez.

Washington, Feb. 22.—Interesting
and important news relative to the future
movements of the American battleship
fleet was made public at the
conclusion of the cabinet meeting by
Secretary Metcalf, comprising an invitation
to the Australian government to have the fleet, or at least
some of its units, visit that country.
Secretary Root's reply is the first authentic
indication as to the intended
movements of the fleet after its
journey to San Francisco has been
completed. After expressing his appreciation
of the invitation the secretary says:

"The eventual movements of our
fleet have not been determined. While
it is probable that the vessels will return
by way of Suez, I would be glad
if some of them could be sent by the
Australian route, but it would be
premature to promise this."

The invitation was first mentioned
in a letter by Hon. Alfred Deakin,
prime minister of Australia, addressed
to John P. Bray, American consul general
at Melbourne, dated Dec. 24, last,
in part as follows:

An Event of History.

"The appearance in the Pacific of
the great American fleet is an event
of history, not only of the United
States, but of that ocean. We naturally
are deeply interested in this visit
and are anxious to have some opportunity
of expressing our sympathy
with our kinsmen in their demonstration
of naval power."

"There are two sides to the Pacific
and it would be a pity if only one of
them were to be favored with the
presence of these ships. I propose
therefore at a suitable time to address
a formal communication to the governor
general to be forwarded to the
colonial office, requesting that an invitation
be sent to the president to permit
your fleet to call at the chief
Australian ports."

"I think you will be able to tell
your government what an enthusiastic,
whole-hearted welcome battleships
under the American flag will receive
in the commonwealth. It would be a
further token of the close alliance of
interests and sympathies which exist
between us."

"No other federation in the world
possesses so many features of likeness
to that of the United States as does
the commonwealth of Australia, and I
doubt whether any two peoples could
be found who are in nearer touch
with each other and are likely to
benefit more by anything that tends
to knit their relations more closely.
Australian ports and portals would be
wide open to your ships and men,
and it would be a matter of great
gratification if the president could
see his way to direct that the wishes
of this government be met in the matter."

Americans Fraternize With Peruvians
at Lima.

Lima, Peru, Feb. 22.—Everywhere
in Lima may be seen the jolly jackies
of the American fleet fraternizing
with the Peruvian men-of-war men,
parading in the Plaza de Armas, or on
sight-seeing tours in the various
interesting quarters of the city. Hundreds
of the men were given shore leave
and they availed themselves of the
opportunity offered by immediately
coming up to the capitol from Callao.

President Pardo received Admiral

MAKE TWO WORLD'S RECORDS

Gun Crews of the Maryland Do Some
Fine Shooting.

San Francisco, Feb. 22.—The record
of the recent target practice at Magdalena
bay shows that the Maryland made
two world's records with three-inch
and six-inch guns. Out of 18.65
shots per minute, a perfect record of
1,000 per cent, without a single miss
was made. This is the highest score
ever made with this particular gun.

The men who accomplished this remarkable
record with the three-inch gun are:
J. D. Hunter, first pointer; I. Belcher,
second pointer; C. F. Tenney, sight setter;
B. Rosshelm, plug man; F. Smith, first shell man;
L. Geiger, second shell man; S. Burns, third
shell man, and O. Olsen, gunner's mate.

In the contest with the six-inch
guns the Maryland's gunners easily
carried off the honors, with an average
of 8.43 hits out of a possible 10.72.

The Maryland not only carried off
individual records, but also led in the
highest score made among all ships.

mobilizing her troops. No confirmation
of the report is obtainable.

MINNESOTA MAN SLAIN.

Robbery the Motive of Murder at Wabasha,
Minn.

Wabasha, Minn., Feb. 22.—Barnard
Rahner, seventy years old, was murdered
at his home on Pepin hill, three miles
from here, by two men. A girl who kept
house for him was the only other person on
the place at the time, and as she ran from
the place the murderers fired after her,
frightening her so that she hid in a haystack,
where she remained concealed nearly all night,
and it was nearly 8 o'clock in the morning
before the affair became known to the authorities.
The motive for the murder is believed to
have been robbery, as some money and a
gold watch were taken from the house, but
a safe which contained nearly \$1,000 in currency
and \$1,900 in certificates of deposit was left
untouched. No arrests have been made.

FIGHT ON PROHIBITION.

Will Be Made by a National Federation
of Liquor Interests.

Chicago, Feb. 22.—Plans have been
completed for the formation of a national
federation of liquor interests with headquarters
in Chicago to fight prohibition in every state
in the Union, according to an announcement
made by J. A. McDermott, manager of the
organization bureau of the project. The
federation will carry on its business through
an executive committee composed of representatives
from the more important organizations in the
liquor trade, and will take in societies and
organizations of every sort which have a direct
or indirect interest in opposing prohibition.

WOMAN UNDER ARREST.

Accused of Inciting Philadelphia Un-
employed to Riot.

Philadelphia, Feb. 22.—The demon-
stration on Broad street by more than
1,000 unemployed foreigners which ended
in a serious clash with the police, was
followed by numerous arrests.

Chief among those taken into custody
was Miss Voltairine De Cleyre, a professed
anarchist, who addressed a meeting of men
which preceded their march to the city hall,
where they intended to ask Mayor Rayburn
for work. Miss De Cleyre was given a hearing
and remanded in \$2,500 bail on a charge of
inciting a riot.

FOUND DEAD IN BED

New York Society Woman Is
Asphyxiated by Gas.

DEATH DUE TO AN ACCIDENT

Tube Became Disconnected From Gas
Lamp and Poisonous Fumes Filled
the Room and Killed Mrs. William
Proudfit Burden.

New York, Feb. 22.—Mrs. William
Proudfit Burden, who was Natica Rives,
daughter of O. H. P. Belmont, and a society
favorite in New York, Newport and Washington,
was found dead in bed at her Fifth avenue home.
Death, the coroner decided, was accidental
and due to gas poisoning. A disconnected gas
tube, which had led from chandelier to a drop-light,
so placed that Mrs. Burden might read while
propped up in bed, had permitted a flow of gas
that filled the room and, escaping into the hall,
finally attracted the attention of the servants.

Mrs. Burden was twenty-two years old and since her marriage on April 17, 1907,
she and her husband had occupied the beautiful
home of the latter's father, the late James A. Burden.
Mr. Burden had spent the night in another part
of the house and learned of his wife's death from
the servants who entered her room. Entering the
house at 11 o'clock at night, Mr. Burden had
noticed that a light was still burning in his wife's
room and passing the door, called out, "good night."
Mrs. Burden responded, "good night," in a tone
that indicated that she was in her usual health
and spirits.

Mrs. Burden had been in the habit of reading
after retiring and this practice recently led her
to have a gas reading lamp placed in her room.
This stood on a stand conveniently near the head
of the bed.

Found Her Mistress Dead.

Passing through the hall on her way to Mrs. Burden's room on the second floor,
the maid detected the odor of gas and hastily entering the chamber,
found her mistress dead. The room was filled with gas, though a window was open several inches from the bottom, while the fumes were pouring from the rubber tubing directly into the dead woman's face. Mrs. Burden's physicians were summoned and they in turn notified the coroner. The latter's investigation showed that the gas tube had been disconnected from the lamp. Apparently having become drowsy, Mrs. Burden had reached from her bed and turned off the lamp cock instead of taking the trouble to get up and shut off the gas at the chandelier jet. In some manner undetermined the tube became loosened at the lower end and slipping off the feed pipe of the lamp, laid in such a position that the flow of poisonous gas was directed into the sleeper's face. The dead woman lay as in sleep without a sign of physical or mental disturbance.

Mrs. Burden was the daughter of Mrs. Oliver H. P. Belmont, who was Miss Sally Whiting, and who secured a divorce some time after her daughter was born. She retained custody of the child and afterward married George L. Rives, at one time corporation counsel of New York.

Following the divorce of her mother and the adoption by Mr. Rives, the daughter took the name of her mother's second husband, and has always been known as Natica Rives.

It is said at the house that young Mrs. Burden had been suffering for some time from a slight attack of grip.

STARVATION IS NEAR.

Suffering Among Victims of Flood in Indiana.

Indianapolis, Feb. 22.—The real suffering from the flood in Southern Indiana has begun and in some cases starvation is near. Surrounded by water from one to ten feet deep, with only a limited supply of food and fuel and no boat available, the families of John Stewart, John Roberts and Allen Lyles, four miles from Patoka, were sorely afflicted. The three men waded and swam a distance of three-quarters of a mile, secured a team and drove to Patoka. Here the county officer furnished provisions and medicines. Securing a boat, they returned home to find their houses flooded. They are now quartered in a shack containing two rooms and sixteen persons are under the one roof. Prior to the departure of the men their families had nothing for their last four meals except bread. It is believed there are many others who are similarly situated. Much sickness is reported.

"The widow has promised to marry me."
"Sure she promised to?"
"Of course I am sure! What do you mean?"
"I thought perhaps that you couldn't tell a promise from a threat."—Hous-

WEEKLY REVIEW OF TRADE

Stormy Weather Has Dullified Distribution and Interrupted Traffic.

New York, Feb. 22.—Bradstreet's review of trade says widespread stormy weather has had the effect of dulling distributive trade, interrupting railway traffic and restricting the movement of grain to market to the smallest volume in twenty-two months. In addition, floods in Ohio and tributary valleys have restricted industrial operations for a time. Jobbing trade, judging from the reports received, continues as recently noted, a good sized aggregate of small orders for immediate or near shipment being reported at leading markets. Millinery, dry goods and kindred lines are in chief demand, with staple goods preferred to novelties, which latter are rather neglected. Retail trade is a transition point and is quiet as a whole, responding to the decreased purchasing power of the wage earning classes. The work of reduction in wages by railroads and other is widespread. Industrial affairs show little change, with shutdowns or short time about counterbalancing resumption. There is, for instance, more doing in finished lines of iron and steel, but in crude forms rather less is done, and the leading producing interest in woolen goods reports 65 per cent of its looms idle.

PACKIE GETS THE DECISION

Chicago Boy Declared Victor Over English Pugilist.

Milwaukee, Feb. 22.—Packie McFarland of Chicago won the decision from Freddie Welsh of England in their ten-round battle before the Badger Athletic club. The fight was one of the fastest and most scientific ever pulled off in Milwaukee. Welsh's defense and footwork were marvelous and from the first round, when he was visibly nervous, he put up a wonderful fight. McFarland forced the fighting all the way, which alone won him the decision, as only once during the ten rounds was Welsh in any trouble. A series of right swings to Welsh's head in the seventh round made him groggy, but he recovered quickly and in the eighth round opened a bad cut over Packie's eye, which slowed the Chicago boy during the rest of the battle. The decision was not well received by the large crowd present, the majority thinking Welsh had at least earned a draw. Malachy Hogan refereed the fight.

Yardmaster Glunt Said to be After Roller Skating Honors in Contest With Staples Skaters

Everyone who knows Jerry Glunt, the jolly yardmaster of the N. P. at this place, knows that he is an expert with the bicycle and the long bow, but few of them were aware that he is seeking honors as a roller skater. The Staples World, however, lets the cat out of the bag in the following:

"J. M. Glunt, the champion roller skater, of Brainerd, has challenged two of the Staples heavy weights to a race. It is to be pulled off at the local rink some time in the near future. The two who are expected to do up the Brainerd champion are James Hartley and Phil McGuire. Phil says he expects to beat Jerry by putting on two pairs of skates. But don't pass the tip to Jerry. One pair is to be put on before they get to the rink. The owner of the rink has taken out tornado insurance. It is the most appropriate he can get to cover the damages to the building when those three graces land in one spot in the floor."

We wish to express our sincere thanks to the many friends who were so kind during the sickness and death of our husband and father, Capt. Jerome Dane.

CROSBY S. NOYES IS DEAD

Veteran Editor of the Washington Star Dies in California.

Los Angeles, Cal., Feb. 22.—Crosby S. Noyes, the veteran editor of the Washington Evening Star, died at the Hotel Raymond, Pasadena, where he had been ill for some time. Mr. Noyes, who was surrounded by the members of his family at the time of his death, retained his faculties to the end.

Washington, Feb. 22.—Mr. Crosby Stuart Noyes, whose death is reported from Pasadena, Cal., was eighty-three years of age and no less than sixty years of his manhood had been spent in the newspaper business. He was born in Minot, Me., Feb. 16, 1825, and finding farm life too hard for his frail physique, he came to Washington in 1847, making the last stages of his journey on foot for lack of funds. He began his newspaper work in the following year as a special correspondent and writer for the Washington News.

From that date until a few weeks preceding his death, Mr. Noyes labored unceasingly at his chosen profession and set his stamp upon Washington journalism as a purveyor of clean, sound, active facts. He continually strove against sensational tendencies, his views on this subject being made known to newspaper men generally through special papers presented by him at the World's Press parliament at the St. Louis exposition and again at the Jamestown exposition last year. Mr. Noyes was a great traveler, especially in Oriental countries, and he was able to impress his views upon governmental politics in shaping the diplomatic relations of America with Japan and China, while he was a potent force in bringing about the annexation of Hawaii. He became connected with the Washington Star as a reporter in 1855, when the paper was under the management of William D. Wallach, and the recognition by the latter of the fine newspaper qualifications and business judgment of his young assistant undoubtedly did much to ensure the laying of the foundation of this great

Bishop John Mouk of the Mennonite church, aged sixty-two, died at his home near Medway, O.

Ten thousand people crowded the state arsenal at Springfield, Ill., and heard William J. Bryan discuss the political issues of the day.

Wilhelm Hildebrand, one of the foremost civil engineers in the country, is dead in New York city. He built the cog railroad up Pike's Peak.

Seeing Things Big.

A Washington scientist, in illustrating recently what the telescope and the microscope have done in extending the powers of vision, employed the following figures: Imagine the size of an eye and therefore of a man capable of seeing in a natural way what the ordinary eye sees with the aid of a large telescope and also the size of a man who could plainly see with his natural eye what we see with a powerful microscope. The first man would be a giant several miles tall and the second a midget of a very small fraction of an inch in height.—Washington Star.

A BRILLIANT FANCY BALL

Masque Ball Given by the Black Hawk Club Friday Night was Brilliant Affair

MANY BEAUTIFUL COSTUMES

Hall Presented a Gorgeous Appearance With Its Crowd of Costumed Dancers

The masquerade ball given by the Black Hawk club at Elk's hall Friday evening was a brilliant affair and one of the most pleasant social functions of the season. There were a large number of costumes, many of them very handsome and expensive secured from the cities which, together with many handsome home creations made the scene one bright with sparkle and glitter of court dress mingled with the more sober costumes of the present day. There were no prizes given for the best or the most ridiculous costumes, which was just as well because the judges would have gone crazy in an attempt to decide which was best.

The following were among the characters represented:

Riverdriver—Chas. Mahlum.
U. S. Army Officer—C. L. Burnett.
U. S. Private—Geo. Whitney.
Buster Brown—Miss Neilson, Miss Rose Poppenberg.

There were about sixty in costume on the floor and nearly as many more who were spectators or participated in the dance later. Frappe was served. Music was furnished by Geo. Greweox and Geo. Putz. The use of drum and traps with the piano in dance music is something new here and made a great hit with the dancers. A large number of the gentlemen's costumes were procured from Martin Giesen, the St. Paul costumer and the Black Hawk club announce themselves as well pleased with them as they were in excellent condition.

WEAVING A STONG NET

SPECIAL TO THE DISPATCH:

International Falls, Feb. 22.—The state is weaving a strong web around James Cadotte, accused of the murder of Williams. County Attorney Stanton succeeded, over strong objections from Attorney Scrutechin for the defense, in getting before the jury and into the record the evidence of Cadotte before the coroner's jury. It was the opinion of Sheriff Walsh that the shot gun he found beside Williams, and with which Cadotte claimed Williams tried to shoot him, was placed in the grass after Williams was killed. Dr. Ratcliffe testified that the shot fired into Williams' body as described by Cadotte, was the only one which was necessarily immediately fatal. The state expected to rest at noon today.

A LARGE FUNERAL

Many People Gather to do Last Honors to Memory of Late James Willis

One of the largest funerals in Brainerd for years was that of the late Jame Willis at the St. Francis Catholic church this forenoon. Mr. Willis was one of the old-timers in the shops and was a general favorite not only with the men under him but among those in other departments. It being a holiday and the shops being closed it gave an opportunity to many, who could not otherwise have done so, to attend the funeral. The Ancient Order of Hibernians had charge of the funeral and were out in force. The A. O. U. W. also attended in a body. A large number of handsome floral tributes were received.

The Jumping off Place

"Consumption had me in its grasp; and I had almost reached the jumping off place when I was advised to try Dr. Kings New Discovery; and I want to say right now, it saved my life. Improvement began with the first bottle, and after taking one dozen bottles I was well and happy man again," says George Moore, of Grimesland, N. C. As a remedy for coughs and colds and healer of weak, sore lungs and for preventing pneumonia New Discovery is supreme. 50c and \$1.00 at H. H. Dunn's drug store. Trial bottle free. tss

Ladies' Musical Club

Shortly after the Ladies' Musical Club of Brainerd was organized nearly five years ago, its chorus was formed—and since then the club has each year paid a trained leader to direct and develop its musical ability. The singing of the chorus, at all of the club's open meetings, and many of its regular ones has become a leading feature in their programs. Those who have been members of the chorus feel that they have gained much in musical expression—and appreciation—through this musical opportunity afforded them by the club. The chorus is doing excellent work this year, under the very able leadership of Mrs. Frances Newman Dial. The chorus will assist Mrs. Olds with three numbers at her recital Monday evening at Elk's hall and as she is so kindly giving her services, the club hopes to realize a nice little sum—will be used for the support of the chorus.

Following is the program:

Chorus, "The Pilgrims Chorus" from Tannhauser.....Wagner
Theme and Variations.....Op. 16 Paderewski
Serenade.....Sinding

OUR INSULAR POSSESSIONS

Former Inspector of Constabulary in Luzon Talks of Conditions and Policies

DO NOT WANT THE ISLANDS

Ultimate Solution Will Probably be Independence Under Joint Protectorate

H. A. Hutchings, of Chicago, formerly a district inspector of constabulary in the island of Luzon, P. I., and who resigned last spring and returned to the states to recuperate, was in the city last night. In conversation with a DISPATCH representative Mr. Hutchings talked very interestingly of his experiences and observations in the Philippines. His observation has been extensive. He went with the 47th regulars, in the first contingent which left after the arrival of the news of Dewey's victory, served as chief of scouts under Gen. Lawton, prior to that general's death and afterwards served in the constabulary inspection service, having charge of a district in Luzon.

Mr. Hutchings states that the Philippines are gaining ground rapidly in the way of self governing ability and he believes that the time is comparatively close when they will be capable of self government if foreign influences can be compelled to keep hands off. The dangers from banditti and ladrones, he says, are practically over as the masses of the people are coming to more thoroughly understand and appreciate the benefits to all concerned of law and order and the outlaws do not have the sympathy and support of apparently law abiding people as some do. He says that in his opinion the United States was compelled to hold the Philippines by the logic of events and did right in doing so but that they have been a losing bargain and should be unloaded as soon as it can be honorably done. It will not be right or honorable, however, to withdraw and abandon them to be overrun by the Japs as they certainly would be, nor does he believe there is anything in the rumors of the sale of the islands to Germany. The islands, he contends, have never belonged to the United States. The government, practically never bought anything but the Spanish property in the islands. Therefore, he argues, the government has no right to transfer them to any other nation without the consent of the Filipinos. The only satisfactory solution he can see of the matter is their ultimate independence under a joint protectorate of say the United States, Germany and Great Britain.

Mr. Hutchings says the American people as a body do not recognize the dangers from the ascendancy of Japan. The emissaries of that country, he states, have to his positive knowledge, acquired while on duty there, a system of information by which they know not only all about the islands, but know the name, location and political tendencies of every wealthy land owner in the islands. He also says they have practically an army of 20,000 men in the Hawaiian Islands, unarmed, it is true, but nevertheless having a perfect organization. He believes that Japan could easily whip the United States in the orient and thinks it would be folly to send the big fleet there because, with the necessity of carrying great fleets of colliers the American navy would be at a great disadvantage.

Mr. Hutchings is a great admirer of Roosevelt and of Taft. From an intimate knowledge of the work of Mr. Taft on the Philippine commission and in the oriental work of the war department generally he says he is confident that the American people can implicitly trust the secretary to carry out the policies of Roosevelt both at home and abroad.

Neighborhood Favorite

Mrs. E. D. Charles, of Harbor, Maine, speaking of Electric Bitters, says: "It is a neighborhood favorite here with us." It deserves to be a favorite everywhere. Its action on the blood, as a thorough purifier makes it especially useful as a spring medicine. This grand alternative tonic is sold under guarantee at H. P. Dunn's, druggist, tss-w

A BRILLIANT FANCY BALL

Masque Ball Given by the Black Hawk Club Friday Night was Brilliant Affair

MANY BEAUTIFUL COSTUMES

Hall Presented a Gorgeous Appearance With Its Crowd of Costumed Dancers

The masquerade ball given by the Black Hawk club at Elk's hall Friday evening was a brilliant affair and one of the most pleasant social functions of the season. There were a large number of costumes, many of them very handsome and expensive secured from the cities which, together with many handsome home creations made the scene one bright with sparkle and glitter of court dress mingled with the more sober costumes of the present day. There were no prizes given for the best or the most ridiculous costumes, which was just as well because the judges would have gone crazy in an attempt to decide which was best.

The following were among the characters represented:

Riverdriver—Chas. Mahlum.

U. S. Army Officer—C. L. Burnett.

U. S. Private—Geo. Whitney.

Buster Brown—Miss Neilson, Miss Rose Poppenberg.

A large number of the gentlemen's costumes were procured from Martin Giesen, the St. Paul customer and the Black Hawk club announce themselves as well pleased with them as they were in excellent condition.

WEAVING A STONG NET

SPECIAL TO THE DISPATCH:

International Falls, Feb. 22.—The state is weaving a strong web around James Cadotte, accused of the murder of Williams. County Attorney Stanton succeeded, over strong objections from Attorney Scrutcher for the defense, in getting before the jury and into the record the evidence of Cadotte before the coroner's jury. It was the opinion of Sheriff Walsh that the shot gun he found beside Williams, and with which Cadotte claimed Williams tried to shoot him, was placed in the grass after Williams was killed. Dr. Ratcliffe testified that the shot fired into Williams' body as described by Cadotte, was the only one which was necessarily immediately fatal. The state expected to rest at noon today.

A LARGE FUNERAL

Many People Gather to do Last Honors to Memory of Late James Willis

One of the largest funerals in Brainerd for years was that of the late James Willis at the St. Francis Catholic church this forenoon. Mr. Willis was one of the old-timers in the shops and was a general favorite not only with the men under him but among those in other departments. It being a holiday and the shops being closed it gave an opportunity to many, who could not otherwise have done so, to attend the funeral. The Ancient Order of Hibernians had charge of the funeral and were out in force. The A. O. U. W. also attended in a body. A large number of handsome floral tributes were received.

The Jumping off Place

"Consumption had me in its grasp; and I had almost reached the jumping off place when I was advised to try Dr. King's New Discovery; and I want to say right now, it saved my life. Improvement began with the first bottle, and after taking one dozen bottles I was well and happy man again," says George Moore, of Grimesland, N. C. As a remedy for coughs and colds and healer of weak, sore lungs and for preventing pneumonia New Discovery is supreme. 50c and \$1.00 at H. H. Dunn's drug store. Trial bottle free. tts

Ladies' Musical Club

Shortly after the Ladies' Musical Club of Brainerd was organized nearly five years ago, its chorus was formed—and since then the club has each year paid a trained leader to direct and develop its musical ability. The singing of the chorus, at all of the club's open meetings, and many of its regular ones has become a leading feature in their programs. Those who have been members of the chorus feel that they have gained much in musical expression—and appreciation—through this musical opportunity afforded them by the club. The chorus is doing excellent work this year, under the very able leadership of Mrs. Frances Newman Dial. The chorus will assist Mrs. Olds with three numbers at her recital Monday evening at Elk's hall and as she is so kindly giving her services, the club hopes to realize a nice little sum—will be used for the support of the chorus. Following is the program:

Chorus, "The Pilgrims Chorus" from Tannhauser.....Wagner
.....Op. 16 Paderewski
Serenade.....Sinding
Prelude Op. 3 No. 2 Rachmaninoff
Chorus, Elizabeth's Prayer, "Prayer to the Virgin".....Wagner (from Tannhauser)
Etudes—Op. 10, No. 13
Op. 25, No. 1
No. 26.....Chopin
Ballade Op. 47.....Chopin.

THIRTY MEN PERISHED.

Death List From Dynamite Explosion in California.

Berkeley, Cal., Feb. 22.—The latest reports from the scenes of the terrible dynamite explosion at the Hercules powder plant at Pinole places the number of dead at thirty. Four of these were white men, the others being Chinese. The body of the foreman, Stilwell, is the only one recovered. He evidently had a premonition of the explosion and got out of the building. The other twenty-nine were blown to atoms. Not a man at work in the packing house and on the train used for hauling the dynamite to the depot escaped.

The six injured girls and four men will recover. No cause is assigned for the accident. The damage to the plant amounts to \$10,000. Superintendent Birmingham says the company will rebuild at once.

FOR AMERICAN NAVY.

Senator Perkins of California Justifies Expenditures.

Washington, Feb. 22.—Senator Perkins of California spoke in the senate in justification of expenditures for the up-building of the American navy and of the policy of sending the fleet into the Pacific ocean. He reviewed the achievements of the navy and declared that it was the most popular branch of the government service.

The senate adopted the Tillman resolution authorizing the attorney general to prosecute the transportation companies of Oregon that have received public lands and have violated the terms of the grant.

NATAL ACT INOPERATIVE.

So Far as Subjects of Japan Are Concerned in British Columbia.

Vancouver, B. C., Feb. 22.—Chief Justice Hunter of the supreme court of British Columbia has ruled the Natal act to be inoperative so far as the subjects of Japan are concerned, though he did not hold that the act is inoperative as a whole. It was held to be in contravention of the treaty with Japan. The matter came up in connection with an application of a writ of habeas corpus, applied for in behalf of two Japanese arrested at Blaine, Wash., while trying to enter British Columbia. The chief justice ordered the release of the two men held, and also suggested that they have a right of action against someone whom he did not name for their detention.

It is understood that the case will be appealed forthwith to the full court of British Columbia, and eventually to the privy council in England.

Decision Was Expected.

Ottawa, Ont., Feb. 22.—The department of justice has been informed that the chief justice of British Columbia had given judgment that the Natal act was illegal and beyond the power of the province to pass and had also released the imprisoned Japanese. The decision was expected and it is believed it will be upheld by the higher courts.

Switchman Killed.

BLOW TO TERRORISTS

Frustration of Plots by Police of St. Petersburg.

MANY ARRESTS ARE MADE

Band Started Out to Murder Grand Duke Nicholas Nicolaievitch and Also the Minister of Justice—Two Organizations Concerned.

St. Petersburg, Feb. 22.—The frustration in this city of a terrorist plot and the arrest on the streets of no less than fifty men and women for alleged complicity was followed by the capture in suburban towns of several other persons implicated in the abortive attempts at assassination, who were gathered in just as they were trying to escape. The police believe they have made the most important and telling move against the terrorists that has been engineered in several years.

The plot came very much nearer maturity than did the last unsuccessful conspiracy against the emperor, the participants in which were tried and condemned last July. According to the police, the band that started out to do murder had two victims in view, Grand Duke Nicholas Nicolaievitch, son of Grand Duke Michael, and M. Chitchevlovitch, the minister of justice. Both the grand duke and the minister were to have been assassinated between their residences and the railroad station at Tsarskoe Selo, where they were going to see the emperor. Two distinct revolutionary organizations were concerned. The first had its headquarters in Finland and the second was the so-called Northern Flying Column, recruited in the vicinity of Moscow.

Alarmed at the recent arrests of agitators at Viborg and Helsingfors and the prospective closing of Finnish territory as a shelter from which to conduct their operations, the first organization decided to put its plans into immediate execution. The Moscow allies were notified and joined the group from Finland in St. Petersburg. The police, however, had been informed of what was in the air and took steps accordingly. They decided to spring the trap, and as a result almost all the men and women implicated are now in prison. Most of the prisoners are young, between seventeen and twenty-one years, well dressed and well supplied with money.

POWERS MAY PROTEST.

Japan's Policy in Manchuria Not Very Popular.

London, Feb. 22.—Considerable interest has been aroused in official and commercial circles by the reports sent over here by the American correspondents of certain London papers that the United States is about to confer with the powers with the view of protesting against the policy adopted by Japan in Manchuria, it being contended that Japan's course has given her own merchants advantages over other traders in that part of China. Nothing is known here officially regarding this proposed protest, and the foreign office doubts the reliability of the press reports. Some complaints have been received from Englishmen trading in Manchuria and in some isolated cases it has been shown that British commerce in that territory has suffered, but on the whole the official view is that it would be difficult to establish the fact that Japan has not observed the policy of the open door.

With regard to the cancellation of the contract held by a British firm for the extension of the Hsinmintun-Fakum railroad the foreign office has advised the contractors that the case is one in which Great Britain cannot interfere and that it is for the sole consideration of Japan and China.

Tiflis, Feb. 22.—News has been received here that the Turks recently raided the frontier village of Carina, in the province of Van, Adriatic Turkey, and captured fifty-one Armenians whom they accused of being members of a revolutionary society. A 6088 GOOD TEMPLAR.

In the state of Iowa many old soldiers are buying 6088, the great Northern blood purifier, for rheumatism, catarrh and kidney trouble.

Read this extract from a letter written by Mr. Story Keith, Clinton, Iowa, P. C. C. T., Independent Order of Good Templars, to George H. Hazard:

"I have not been as free from rheumatism for a long time as at present, and will tell you what has done it—Matt J. Johnson's 6088, made in St. Paul—perhaps you know of them, if so give them my love for they have a dandy remedy for the ills that we boys are subject to. Everyone in our family is taking it, and all are feeling better. My wife has been so lame she could hardly get up from her chair, and my back at times gave me lots of trouble. Now we are all feeling better, and will keep a bottle on hand at all times."

This great remedy is sold by the best druggists everywhere. Ask about our free trial. Sold and guaranteed by—

Telegraphing Made Easy

A Soo Line Operator Invents a Machine that Makes the Dots—Sold All Over the World

F. T. Vail, formerly chief operator of the "Soo Line" at Minneapolis, now the chief electrician of the International Vailograph Co. with an aggressive and pushing organization at his back, is heralded as the latest great inventor in the telegraphic field.

As is generally known, a telegraph operator "talks by dots and dashes" made with a key that opens and closes the electric circuit. To make dots and dashes is nerve-racking work. In rapid sending it is estimated that an operator makes 30,000 nerve movements an hour. Mr. Vail has invented a machine that makes this mere child's play, as the Vailograph makes the dots. A large number of telegraph operators and other people with money to invest are buying stock in the company, which has recently installed a factory at Minneapolis and will sell its product all over the world. Parties seeking a safe investment will find it to their interest to write the INTERNATIONAL Vailograph Co., (Incorporated) Guaranty Bldg., Minneapolis, Minn.

THIRTY MEN PERISHED.

Death List From Dynamite Explosion
in California.

Berkeley, Cal., Feb. 22.—The latest reports from the scenes of the terrible dynamite explosion at the Hercules powder plant at Pinole places the number of dead at thirty. Four of these were white men, the others being Chinese. The body of the foreman, Stillwell, is the only one recovered. He evidently had a premonition of the explosion and got out of the building. The other twenty-nine were blown to atoms. Not a man at work in the packing house and on the train used for hauling the dynamite to the depot escaped.

The six injured girls and four men will recover. No cause is assigned for the accident. The damage to the plant amounts to \$10,000. Superintendent Birmingham says the company will rebuild at once.

A 6088 GOOD TEMPLAR.

In the state of Iowa many old soldiers are buying 6088, the great Northern blood purifier, for rheumatism, catarrh and kidney trouble.

Read this extract from a letter written by Mr. Story Keith, Clinton, Iowa, P. C. C. T., Independent Order of Good Templars, to George H. Hazard:

"I have not been as free from rheumatism for a long time as at present, and will tell you what has done it—Matt J. Johnson's 6088, made in St. Paul—perhaps you know of them, if so give them my love for they have a dandy remedy for the ills that we boys are subject to. Everyone in our family is taking it, and all are feeling better. My wife has been so lame she could hardly get up from her chair, and my back at times gave me lots of trouble. Now we are all feeling better, and will keep a bottle on hand at all times."

Telegraphing Made Easy

A See Line Operator Invents a Machine that
Makes the Dots—Sold All Over the World

F. T. Vail, formerly chief operator of the "See Line" at Minneapolis, now the chief electrician of the International Vailograph Co. with an aggressive and pushing organization at his back, is heralded as the latest great inventor in the telegraphic field.

As is generally known, a telegraph operator "talks by dots and dashes" made with a key that opens and closes the electric circuit. To make dots and dashes is nerve-racking work. In rapid sending it is estimated that an operator makes 30,000 nerve movements an hour. Mr. Vail has invented a machine that makes this mere child's play, as the Vailograph makes the dots. A large number of telegraph operators and other people with money to invest are buying stock in the company, which has recently installed a factory at Minneapolis and will sell its product all over the world. Parties seeking a safe investment will find it to their interest to write the

Laurel Street

Isn't it the limit to come home cold and tired, dead anxious for a drink and find nothing in the house but water or insipid tea and coffee? The wise thing for every man in this town to do is to call on us for a bottle of the liquor he likes best. We keep all the favorite brands of whisky and we always sell cheaply.
